Date Completed

May 2007

Delivery Method

Construction Management

JM Olson Corporation was contracted to provide Construction Management services for the Best Buy retail store located at the Fairlane Green Retail Center. This 45,000 SF electronics and appliance store was constructed by Ford Motor Land Development and is leased to Best Buy.

The "big box" style structure features prairie landscaping and construction designs to incorporate it into the LEED initiative of the entire retail complex. The project is a LEED certified structure.
